

Trailer Stages

Quick and easy to setup, mobile trailer stages are a cost-effective solution for your event. Ideal for Town Councils and High streets as road closures are kept to a minimum. These stages also have a great impact at festivals and concerts. Ground conditions and slopes are not a problem as these stages are self-levelling with hydraulics.

TRAILER STAGES

Small - TR1612

Medium - TR2420

Large - TR4524

Trailer	Width	Depth	Roof height	Price from
